

Cowboy Mounted Shooting GUNS AND HOLSTERS Clinic

Guns

We will discuss the different types of guns available for this sport.

Will talk about gun tuning and why it is important.

We will have some hands on so you can feel some of the differences.

If you have guns bring them, the more people can see the better.

For safety reasons, please leave your ammo at home!

Holsters

Holsters can make or break your success.

We will talk about considerations for our unique application.

We will talk about different types of holsters and how they function for us.

If you have holsters bring them.

Time and weather permitting I may provide another Shooting Demo if there is interest or there are some who missed the first clinic.

WHEN

Nov. 17th 2007

1:00PM

WHERE

**17590 Flowers Lane
Anderson / Happy Valley**
